

Debra Moss

Medical Surgical Services Manager

Hello, my name is Deb Moss. I started my career in healthcare as a CNA in 1988 and earned my nursing in 1991. I worked in long term care for the first 10 years and then moved here to Idaho Falls in 1999 where I landed a job at a local hospital. I worked Medical/Surgical/Oncology for 12 years, Float Pool for about a year, Wound Care, and the Burn ICU for about 1 1/2 years. I also had a short time with Home Health. I started here at IFCH in January of this year as CTL/Charge, and I'm very excited to accept the position of Manager for our Medical/Surgical unit.

I have two children: Zach, and Sheldon (both out of the house) but replaced by my dogs Teddy and Tanzi. We have 4 grandkids, 2 here and 2 in Moscow, ID. My husband is a nurse as well and works at BHC (I think that helps him deal with me) We like to ride motorcycles and yes, I ride my own! I love the outdoors, camping, hiking, fishing all that stuff. My family is very important to me. I'm even lucky enough to have family that works at MVH. It already feels like family here at IFCH which makes it a really good fit for me. I look forward to getting to know all of you better!

So on to bigger and better things for us all!!
